THE ART PILLOW COLLECTIONS

2022
second Edition

Art & Inspiration

Trapeze is a dynamic Greek company, which relies on the collaboration of international artists with local production teams to produce and market **limited edition art collections** printed on cushions. Based on romance and inspiration, **Trapeze** cushions light up the space, connecting art with the everyday pleasures of life.

Creativity leads to human connection and art strengthens morale, especially in times of uncertainty. That's why at **Trapeze** we work every day with vision, ingenuity and the belief in the importance of fostering bonds with the artists and giving back to our own community through our donation programme.

Art for unique spaces

Our goal is for our cushions to be found in unique and special spaces and to fit harmoniously with them. Boutique hotels, villas, yachts, decoration shops or bars - restaurants are places that can host us and offer your customers this special touch of quality.

The designs are unique, by artists from different countries, but also unique in terms of their aesthetics and the materials used.

They will certainly be able to highlight the spaces, modern or classic, but also make everyday life more pleasant for them.

During Summer in Greece the senses wake up

The sea, the warm afternoons, some hidden looks, the walks on the seaside, small daily pleasures full of flavors, colors and light that compose the recipe of inspiration for this collection.

BIKINI

*"Our memory runs very fast in my brain,
adrenaline, endorphins chasing each other like lovers with-
out remorse,
I run in my veins and do not find release...
It is a sweet torment to remember and I long for oblivion*

*I close the colors and construct the past in black and white.
I make it as complicated as a gate of beautiful wrought iron,
I add elegant columns and plant aromatic honeysuckle to
climb everywhere"*
